

CurvaStone® 20mm Outdoor Range

2021

CurvaStone® Indoor/Outdoor Porcelain Range 2021

Extend your home to the great outdoors...

Our premium porcelain outdoor tiles offer a stylish alternative to stone or concrete flagstones and our wood effect ranges create the look of high-end timber decking but with many added benefits such as good slip resistance.

Hard wearing and practical, these tiles have a 10 year guarantee, are simple to install and require no sealing - the perfect way to create a durable and low maintenance living space that's great for the whole family.

Available in a choice of 20 colours and designs, our 20mm thick porcelain tiles are perfect for outdoor living. Selected designs also have coordinating indoor tiles for seamless living spaces from inside your home and out into the garden.

CAIRNS

Create a rustic feel in your outside space with the authentic veining and natural stone look of Cairns. This striking design has been created using high definition printing techniques that create the look of natural stone, but without the need for sealing and maintenance. Cairns is available in two shades - modern classic Grey, and traditional warming Beige. Coordinate 10mm thick tiles through to your interiorspaces too for a seamless finish from garden to home.

Beige & Grey available in sizes 595x595x10mm indoor, 600x600x20mm outdoor & 600x900x20mm outdoor.

CAIRNS Grey 600x900x20mm

GOULBURN

Add a contemporary touch to your outside space with the subtle concrete style patterning of Goulburn. This modern design has been created using high definition printing techniques that create a look of weathered concrete, but without the need for sealing.

Goulburn is available in three shades - dark and moody Anthracite, classic and chic Grey, and refreshing Ivory. Use coordinating 10mm thick tiles in your interior spaces too for a seamless finish from garden to home, or combine with our striking Goulburn Geometric outdoor porcelain tiles.

Ivory, Grey & Anthracite available in sizes 595x595x10mm indoor & 600x600x20mm outdoor

GOULBURN Ivory 595x595x10mm & 600x600x20mm

GOULBURN Grey 595x595x10mm & 600x600x20mm

GOULBURN Anthracite 595x595x10mm & 600x600x20mm

HOBART

If you love the look of natural wood or timber decking, then Hobart is the perfect collection to create a hard wearing and durable patio area. Unlike timber, our porcelain tiles do not require sealing to protect them and will not rot or become slippery in wet weather.

Contemporary Grey creates a cool and stylish space, whilst the Oak shade grounds gardens and offers natural charm.

Our indoor 11mm thick tiles come in a slightly smaller format to better suit interior spaces and blur the boundaries between indoor and outdoor living.

Grey & Oak available in sizes 195x1200x11mm indoor & 300x1200x20mm outdoor

Hobart Oak 195x1200x11mm & 300x1200x20mm

Hobart Grey 195x1200x11mm & 300x1200x20mm

GOULBURN GEOMETRIC

Looking for something a little bit different? Our Goulburn Geometric tiles are the perfect choice to create a unique outdoor living area. Embrace the great outdoors and create a feature floor that is sure to get your friends and family talking.

Combine with Goulburn non-patterned tiles to create zoned areas - ideal for defining entertaining and relaxing spaces.

Extremely hard wearing and simple to install, Goulburn Geometric tiles are the easy way to create a statement on-trend outdoor space.

CANBERRA

The Canberra collection features a subtly shaded pattern with tonal flecks of stone effect detailing. Opt for the contemporary and versatile Light Grey shade, or create a bolder statement with the striking Dark Grey shade that really makes plants and foliage pop. For a softer and more natural look the Ivory shade is perfect for creating a relaxed and calm feel. Frost and fade resistant, these tiles are a practical choice for any outdoor space.

Ivory, Light Grey & Dark Grey available in sizes 600x600x20mm & 600x900x20mm outdoor

ADELAIDE

Adelaide features a fresh and light white colouring mixed with traces of natural tones that's ideal for creating an illusion of space in small gardens.

Coordinate with statement pops of colour and a mixture of florals for a bright and exciting space, or for a more traditional Mediterranean look add terracotta pots and deep aqua blue tones reminiscent of the sea and summer sky.

Fade resistant in strong sunlight and resistive to algae and moss, Adlington will look perfect for many years to come.

available in sizes 600x600x20mm

ROCKHAMPTON

In stark contrast to Adelaide, Rockhampton is the darkest shaded tile in the outdoor collection, featuring a striking black tone with an understated stone effect pattern.

The deep shading of this tile creates the ideal backdrop to allow plants and foliage to really stand out.

Style with shades of grey and white for an ultra-sleek monochrome look that's practical, hard wearing and low maintenance.

Available in sizes 600x600x20mm

PERTH

Create a striking and unique look with the appearance of natural stone but in a low maintenance porcelain tile that won't fade over time. Each tile features a varied mix of natural patterns and stone-style veining that replicates the real thing. Perth is available in two shades - soft and calming Grey, and warm and inviting Sand. Remember to always mix up your tiles prior to fixing to create a pleasing blend of patterns and shades.

Installation Accessories

From small and intimate patios, to large scale landscaping projects, the Outdoor collection offers a comprehensive range of installation accessories to complete any project. If you are fixing your tiles with mortar, **Instarmac Pro-Prime Slurry** is an absolute essential to ensure your tiles bond to the base below. Use **JUST SIMPLY® Sealer** to create a protective seal against installation residues such as mortar and grouting compounds, and for any stubborn stains after installation, use the **JUST SIMPLY® Complete Cleaner**. For a perfect finish, use **Instarmac ProPave Brush-In Grout** to infill joints with minimal effort.

Slurry Primer

- Provides an exceptional bond between outdoor porcelain tiles and a wet mortar bed
- Just add water on-site
- Quick and easy application
- 20kg paper bag covers 15m²*
- NBS Plus registered
- BS 7533 compliant

Brush-In Grout

- Use to fill the gaps between tiles for a seamless finish
- Fast and easy application
- Permeable - allows drainage
- Walk on in just 24 - 48 hours
- Use in all weather
- Resistant to frost and extreme weather conditions
- No waste - left over material can be re-used
- 15kg tub covers up to 25m²**

Black

Grey

Buff

* Coverage is provided as a guide only and reflects typical application without any wastage. It should not be used as an exact material calculation.

** Based on 600x600mm tile, 20mm joint depth & 3mm joint width.

Natural Stone & Porcelain sealer

- Apply before grouting to create a protective seal against cement, grout & jointing compounds
- Apply after grouting to protect both exterior and interior porcelain tiles against the dirt of everyday living
- Bio - inhibits microbial growth
- 1 Litre covers approx 25m²*

Complete Patio Cleaner

- Unique garden friendly formula
- Removes Black spot, Algae, Lichen & Moss
- Cleans Porcelain, Natural Stone, Block paving, & Concrete
- None Bleach Based
- Acid Free
- More eco-friendly than other chemical based patio cleaners

Complete Patio Cleaner

High Performance Patio, Path & Driveway Cleaner

- ✓ Unique garden friendly formula contains NO BLEACH
- ✓ Removes Black Spot, Algae, Lichen & Moss
- ✓ Cleans natural stone, concrete, block paving & porcelain

5 LITRE

Installation Advice

With the right materials and preparation, you can easily install your own Outdoor tiles. Follow these simple steps to create your own seamless indoor & outdoor space. Installing your own Outdoor tiles is both rewarding and satisfying but before you begin, be sure you have the correct tools and the appropriate protective equipment. Always wear gloves and safety footwear when working with outdoor porcelain tiles. Handle your tiles with care to avoid breakages and seek assistance when lifting.

How to install a porcelain patio on wet mortar

Step One

Firstly, mark out the area where you want your patio to be with posts and string. Measure the length and width of your area and multiply these values together to calculate the square meterage. If your area is not a straight forward square or rectangle, break each area down into smaller rectangles. Calculate each rectangle, then add these values together. Once you've calculated the total square meterage, multiply this number by 1.1. This adds 10% extra on to your total to allow for cuts and wastage.

Step Two

Although outdoor porcelain tiles don't need to be sealed to protect them from water penetration, you may find the installation process easier if you coat the tiles before installation with JUST SIMPLY® Tile Protector. This prevents mortar and slurry from becoming ingrained in the surface of the tiles and makes cleaning up after installation even easier. Apply to the surface of the tile with a foam roller, taking care not to coat the edges as this can prevent the grout from bonding.

Step Three

Before you lay your tiles, you will need to prepare the ground, by digging to a depth of around 150-200mm. Your ground should have a slight slope to allow for drainage. If you're tiling up to the edge of a house or wall, the slope should run away from the structure.

Step Four

Fill with hardcore (gravel and crushed hard rock) to a depth of 100-150mm and use a rake to distribute the mixture. Compress the hardcore using a whacker power plate, building up in layers. Remember to check that your ground still has a slight slope.

Step Five

Add a layer of mortar on top of the compressed hardcore. We recommend 4 parts sand to 1 part UltraTileFix ProPave Mortar.

Step Six

Place 7 litres of clean water in a suitable container. Add UltraScape Pro-Prime powder slowly and mix for 3 to 5 minutes to create a smooth lump-free slurry. Coat the underside of the first tile with priming slurry. Using priming slurry is an essential step to ensure that your tiles bond to the mortar bed.

Step Seven

Place the tile into position, using a corner as a starting point - for example next to a wall or house. Press into place and use a rubber mallet and spirit level to secure and adjust the level, remembering to take drainage into consideration. Continue to lay tiles in this way leaving a 3-5mm gap between each one. Use a bucket of water and sponge to clean up any mortar or slurry as you go.

Step Eight

Avoid walking on your newly laid patio for a minimum of 24-48 hours to allow it to dry and strengthen. If you wish to infill any joint gaps, we recommend using ProPave Brush-In Grout designed for outdoor porcelain tiles. Use a brush to mix over the joints, gradually and evenly filling them all in. Once the joints are filled, use a pointing trowel to firm the grout into place. Add more grout if needed to create a clean and level finish.
